

CASE STUDY : BLACKMANSPARGO RURAL LAW

Deciding to embark on a complete technical upgrade in one go was not a decision BlackmanSpargo took lightly. A complete upgrade of IT systems, servers, computers and software meant massive changes for staff - but when they discovered their existing practice management system was no longer being supported, they decided the change needed to happen.

OUTCOME: SMOOTH TRANSITION

When investigating a new practice management system, practice manager Sheree Chote was understandably apprehensive about how the change would affect the practice and its staff. When it came to migrating to the OneLaw system, however, her worries were put to rest.

When it came to upgrading to the OneLaw system, the transition went smoothly with no problems - alleviating pressure on the firm and its staff.

"The transition to OneLaw was great. The data transfer went smoothly with no problems. I couldn't have asked for more."

Simple, intuitive programming meant staff quickly embraced the new system and were up and running with very little downtime in between. BlackmanSpargo chose OneLaw for its easy transition and data transfer from their old system, and it turned out to be a huge advantage for the firm.
